

Environmental Responsibility

Quest Uranium Corporation is dedicated to protection and prevention of our natural, human, and social environments. Quest Uranium will achieve this objective by:

Using the most efficient technologies and techniques that minimize the Company's environmental impact and risk;

Developing and implementing emergency action plans to manage unexpected events;

Adhering to laws and regulations of the jurisdictions in which the Company conducts its projects;

Ensuring conservation and minimize consumption of natural resources and consumable goods;

Informing employees and members of the Management Advisory Board of the Company's environmental management plans, policies, and procedures;

Providing training and assessment to ensure that employees have the knowledge and skills required for their functions;

Ensuring that subcontractors and suppliers of goods and services adhere to the Company's environmental management plans, policies, and procedures;

Participating in research and development programs to improve environmental management and processes;

Establishing relationships with stakeholders, government organizations, and the general public and encourage relations in order to lead to improvements in industry practices.
